Factory Supply China Retainer, Wrap Around, Our production have been exported to more than 30 countries and regions as first hand source with lowest price. We sincerely welcome customers from both at home and abroad to come to negotiate business with us.

Hawley retainers were designed in the 1920s and are still commonly used. Retention usually involves Adams clasps fitted to the first molars. Care is taken to avoid passing clasp wire across closed extraction sites as poor positioning can cause the space to reopen.

The retainer mainly refers to an auxiliary orthodontic treatment device used after the orthodontic treatment.
